Joseph Smith

Environmental & Water Operations Leader

Muskegon, Michigan | joe@homesteadestates.com | CONFIRM | **josephsmith.info**

TARGET

Public Services / Water & Wastewater Operations Supervisor - environmental compliance, field operations leadership, mechanical systems, GIS reporting

PROFILE

Operations leader with 15+ years spanning environmental remediation, municipal-support engineering, commercial construction crews, and a self-run tree service - with hands-on expertise in pumps, electrical controls, diesel equipment, and preventive maintenance. Built and runs NviroGear, a GIS-and-records intelligence system that turns environmental data into defensible reporting. Known for running field operations that stay inside permit lines and documentation that survives agency review.

EXPERIENCE

Zephyr Remediation Site (Muskegon) CONFIRM ~2.5 years

Field Operations - Environmental Remediation

- CONFIRM with Joe: crew size, equipment operated, sampling support, H&S; role, daily reporting
- Worked the site through a multi-million-dollar cleanup program tied to the Muskegon Lake Area of Concern delisting - the kind of regulated ground where documentation discipline is the job
- CONFIRM: any water treatment, dewatering, or groundwater extraction system operation

Fleis & VandenBrink (Engineering Consultant)

CONFIRM exact title and dates

- CONFIRM: municipal water/wastewater project support, field inspection, construction observation
- Exposure to Michigan municipal water and wastewater standards from the consultant side - plan sets, specifications, and field verification

Smith Tree Service (owner/operator) CONFIRM

Owner / Field Supervisor

- Ran commercial and residential tree operations across Muskegon, Newaygo, and Ottawa counties - crew leadership, equipment maintenance, customer scheduling, and job costing
- Diesel equipment and hydraulic systems maintained in-house; preventive maintenance program kept crews running without downtime
- CONFIRM: revenue scale, crew size, safety record

Commercial Construction (crew leadership) CONFIRM

Crew Leader

- Led commercial construction crews - site safety, sequencing, subcontractor coordination
- CONFIRM: project types and scale

NviroGear LLC CONFIRM start year

Founder / Systems Builder

- Built a GIS-backed property and environmental intelligence system: county parcel geometry, contamination-site cross-referencing, evidence hashing, and automated reporting
- Produces regulatory-grade reports (documented vs. inferred clearly separated) for land, water, and contamination questions

CORE SKILLS

ENVIRONMENTAL / WASTEWATER Remediation site operations · Groundwater extraction and treatment systems (CONFIRM specifics) · Sampling support and chain-of-custody (CONFIRM) · Permit-line discipline and field documentation · EGLE/EPA program familiarity

LEADERSHIP & FIELD Crew leadership (CONFIRM sizes) · Job scheduling and costing · Subcontractor coordination · Safety culture and PPE programs · Client communication

MECHANICAL Pumps and pumping systems · Electrical controls and panels · Diesel engines and hydraulic equipment · Preventive maintenance programs · Troubleshooting under field conditions

TECHNOLOGY & REPORTING GIS (ArcGIS REST, parcel data, mapping) · Environmental records research · Digital reporting and evidence documentation · Automated report generation · Spreadsheet and data analysis

CERTIFICATIONS & QUALIFICATIONS

Completed: CONFIRM: list every completed certification with issuer and date
In progress: CONFIRM: list in-progress certifications with expected completion

EDUCATION

CONFIRM: highest level, institution, year
